Earth-friendly bags are also stylish

Atlanta-based Malcolm Frontier Accessories offers chic carryalls and wallets that prove earth-friendly items can still be stylish. The unisex bags are made of cruelty-free materials including polyurethane-coated canvas. The pocketed "Director" bag, with space for a 15-inch laptop and belt closure, is \$225 at Bill Hallman. In addition, the company donates 1 percent of annual revenue to One Percent for the Planet, which supports environmental groups.
