## iMojito Wallet

Made by: [Malcolm Fontier](#)

Price: \$35.00

Sometimes you don't need a purse, or man bag, or backpack, or any other kind of bulky carry-all to weigh you down when you walk out the door. Sometimes you just want to slip a little something in your pocket, and this iMojito is quite a cool little polyurethane number for your iPhone, credit cards, and a bit of cash to make it through the day.
