being one of the boys is old news. besides, you look way better in a fedora. but now that [malcolm frontier](#) is available online in new colors, you can play up the tomboy trend to your heart's content.

while your girlfriends were doing barbies and tea parties, you were making mud pies and collecting baseball cards. all grown up, you've lost the pixie cut (but never your edge). atlanta-based malcolm frontier, the purveyor of unisex carryalls, has finally added some new colors (like the island blue) and hot looks to his already popular collection of bags and wallets. reclaim the "murse" with one of the neutral-toned canvas totes (pictured). with names like the "guide," the "entertainer" and the "interpreter," choose the one that best fits your life motto. they're sturdy enough to hold up against all your exploits, from mountain biking in the alps to last call warehouse sales at the perimeter. and don't forget about their toiletry cases and wallets that are perfect for you (or the guy in your life). your feminine side gets enough attention (hello, four-inch manolos) so give it the sack and tap into your inner tomboy. but remember, good things come to those who wait: the island blue won't be available until february.

time to discover a new frontier.
